TANISHA GUPTA

Cybersecurity Analyst | VAPT & Web Application Security | BCA (Cyber Security)

Delhi, India | guptajitannu555@gmail.com | +91 9875707726 | LinkedIn | GitHub | Portfolio | TryHackMe

PROFESSIONAL SUMMARY

Cybersecurity-focused BCA graduate (2026) with hands-on internship experience in Vulnerability Assessment and Penetration Testing (VAPT), network security, and security scanning across four cybersecurity internships. Skilled in identifying and reporting vulnerabilities using tools such as Burp Suite, OpenVAS, and Wireshark, with supporting web development experience in HTML, CSS, and JavaScript. Seeking an entry-level Cybersecurity Analyst role to apply penetration testing and threat detection skills in a production security environment.

TECHNICAL SKILLS

Security Testing: Penetration Testing, Vulnerability Assessment (VAPT), System Hacking, Bruteforce Testing
Tools: Burp Suite, OpenVAS, Wireshark
Domains: Network Security, Web Application Security, Malware Analysis Fundamentals
Programming/Web: HTML, CSS, JavaScript, C, C++
Platforms: TryHackMe

INTERNSHIP EXPERIENCE

Cybersecurity Intern – VAPT Domain (Co-Lead) Jan 2026 – May 2026
Cyart Tech *Remote*

- Co-lead a team of interns in performing Vulnerability Assessment and Penetration Testing (VAPT) on web and network assets, identifying security weaknesses and documenting findings.
- Used Burp Suite and OpenVAS to run vulnerability scans, triaging issues by severity to support remediation planning.
- Coordinated with team members to compile VAPT reports detailing vulnerabilities, risk ratings, and recommended fixes for client review and worked on project chain discovery dashboard.

Cybersecurity Intern (Onsite Internship) Jun 2025 – Dec 2025
Novanectar Services Pvt. Ltd. *Dehradun, Uttarakhand*

- Performed network and web application security assessments using penetration testing methodologies to identify exploitable vulnerabilities.
- Analyzed network traffic with Wireshark and tested web applications with Burp Suite as part of onsite security engagements.
- Gained hands-on exposure to system hacking techniques and vulnerability scanning workflows under senior mentor guidance.

Software Development Engineer (SDE) Jun 2025 – Jul 2025
Bluestock Fintech *Remote*

- Contributed to front-end development tasks for a fintech platform using HTML, CSS, and JavaScript.
- Collaborated remotely with the development team to build, test, and refine application features.

Cybersecurity Intern Nov 2024 – Jan 2025
Plasmid Company *Remote*

- Assisted in vulnerability scanning and basic penetration testing exercises on test environments.
- Researched common web and network attack vectors and contributed to internal security best-practice documentation.

PROJECTS

InvestiCore — Enterprise AI Cyber Crime Investigation & Digital Forensics Ecosystem

- Built an AI-powered platform to simplify cybercrime investigations and digital forensic analysis.

- Automated evidence processing, threat intelligence correlation, and IOC visualization for faster investigations.

ScanHexa — Cybersecurity Analysis Platform

- Developed a unified cybersecurity platform for vulnerability scanning, malware analysis, and threat detection.
- Combined multiple security tools into a single, easy-to-use interface.

Cybreon — AI-Powered Digital Brain for Smart Automation

- Created an AI-powered platform for malware analysis, digital forensics, and vulnerability assessment.
- Automated threat analysis to support faster and more effective security investigations.

SmartDoc — AI-Powered Document Management Suite

- Built an AI-powered document management tool with summarization, translation, text humanization, and PDF security features.
- Simplified document processing with file transformation and password management.

Sorter Pro — File Sorting & Security Analysis Utility

- Developed a utility to automatically organize files by extension.
- Added file security analysis to help identify potentially suspicious files.

CERTIFICATIONS

- **Certified LLM Security Expert (CLLMSE)** — Red Team Academy *(Score: 82%)*
  Focus Areas: LLM Attacks, Prompt Injection, AI Red Teaming, Secure AI Design, AI Governance
- **Ethical Hacker** — Cisco Networking Academy *(July 2026)*
  70-hour training with 34 hands-on labs in Ethical Hacking, Vulnerability Assessment, Penetration Testing, and Network Security.
- **Certificate of Participation** — 10-Day International Conclave on AI, Cybersecurity & Emerging Technologies
  Centre for Innovation & Incubation, Central University of Haryana & M Cyber Academy (July 2026)
- **Cloud Computing Course** — IBM SkillsBuild Advanced IT Skills Program *(A+ Grade)*
- **Pre Security Learning Path** — TryHackMe
- **Advanced Penetration Testing** — MindLuster
- **Cybersecurity Hackfest** — Mile2
- **Training in C & C++ Programming** — Internshala *(2 Months)*)

EDUCATION

Bachelor of Computer Application (BCA) – Cyber Security 2023 – 2026
Uttaranchal University *Dehradun, Uttarakhand*

Higher Secondary Certificate (HSC) – PCM 2022 – 2023
Angel Academy Sr. Sec. School *Khairthal, Rajasthan*

Secondary School Certificate (SSC) 2020 – 2021
Angel Academy Sr. Sec. School *Khairthal, Rajasthan*

ACHIEVEMENTS

- 2nd Position, Animated Storytelling Competition — IT Utsav 2025, Uttaranchal University
- 3rd Position, Avishkar Competition — IT Utsav 2024, Uttaranchal University
